

I'm writing to request that you do not introduce the LPFM broadcast service, as it will most likely bump the station I listen to on an FM translator. I currently listen to K-LOVE radio on 105.5 in Casa Grande, Arizona. This station has been a lifeline to me in a dark time of my life, and has continued to encourage me and my family. I know many people who are encouraged by this radio station, spiritually and emotionally, as well as receiving national and world news, and uplifting stories of Christian life. Please do not implement this LPFM.
